

PUBLIC MEETING #3 RESULTS

Due to COVID-19 and public gathering restrictions, meeting in person for this final community engagement exercise was not an option. The purpose of the meeting was to update the public on the planning process, outline what has been accomplished since Public Meeting #2, present the Implementation tables, and solicit input from the public. The meeting consisted of a virtual presentation posted to the project webpage and shared to the City's website, and an online survey. The survey was open from June 26th to July 19th, 2020.

ONLINE SURVEY RESPONSES

The third Public Meeting, though held virtually, was supplemented with an online survey to help prioritize the Master Plan's various Goals, Strategies, and Planning Concept Areas. The online survey was taken by 65 people, which included prioritizing (High, Medium, or Low) the Master Plan's 15 Strategies, and ranking the five main Goals and four Planning Concept Areas in order of most to least important.
