Introduction & Usage

The purpose of this manual is to introduce the Off road Trails & Bikeways Wayfinding Sign System Standard and provide instructions to those who may be planning, specifying, and maintaining signs for trail and bikeway networks throughout Cleveland and Cuyahoga County.

This wayfinding system was developed to create a connective experience for people choosing to explore Cleveland, its neighborhoods, and communities beyond via our extensive off road trail and bikeway network.

The sign program is meant to provide consistent and uniform presentation of guidance information that not only supports comfort and safety but encourages exploration of our communities.

There may be instances where a nonstandard sign is necessary. This manual provides a standard for design intent. Any custom signs or deviations from the sign family must be approved by the Off road Trails Wayfinding Taskforce.

DEFINITIONS

- » Off road trails: Multi-use trail facility designated for the use of pedestrians, bicycles, and/or other non-motorized users and associated bridges
- » Bikeways: lane or thoroughfare for use by human-powered or electric powered bicycles or scooters

INTENT

- » Create a standard wayfinding sign program for the trails and bikeways that connects the Greater Cleveland area.
- » Standards include the look and feel of the system of signs, guidelines for content, criteria for naming/nomenclature, and information hierarchy.
- » Create consistency in sign content and information hierarchy for people experiencing Cleveland and its communities via trails and bikeways.
- » Support and promote the trails and bikeways as an alternate way to see and experience greater Cleveland and its communities.

USING THIS MANUAL

Section 1 Introduces the Graphic Standards for the Sign Program. It addresses the use of graphic elements, logos and symbols, fonts, colors, materials, and nomenclature used within the program.

Section 2 Introduces the Sign Family. It includes programming and usage information for each sign type.

Section 3 & 4 Provides Design Intent-level drawings for each sign type, specifying layouts, element sizes, materials and recommended fabrication and mounting methods. *Note: These drawings and notes are for the sole purpose of expressing visual design intent and are not intended for actual fabrication purposes.*

Section 5 Appendix

SECTION 1

Fonts

One primary font family has been used for the Sign Standards Program: Interstate.

Typography Call-outs

These labels are used in Section 3 to indicate the typeface and other type-related specifications:

Typeface
(see codes,
right)

T1 AC

All caps (AC)
or Upper &
lowercase (UL)

**The fonts specified on this page are copyrighted and contain proprietary information belonging to the creators. Unauthorized copying or sharing of these fonts is expressly forbidden. Users of these fonts are to purchase the appropriate licenses for their use (links have been provided). Typeface licensing agreements may vary. Purchaser should review typeface licensing terms prior to purchase.*

For information about purchasing fonts specified on this page visit
Interstate: <https://fonts.adobe.com/fonts/interstate>

<https://freefontsvault.com/interstate-font-download-free/>

INTERSTATE

Interstate

is the primary type family of the standardized Sign Program. It fulfills the specific legibility requirements of exterior signage and provides easy and quick recognition of characters at typical viewing distances and angles.

① **ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz

1234567890**

Interstate Black

SECTION 1

Symbols & Arrows

SYMBOLS

Symbols, or pictograms, are an important tool in communicating to a diverse audience. Symbols cross language boundaries by employing images to identify and direct to public destinations and services. This sign program uses several of the internationally-recognized symbols utilized by the U.S. Department of Transportation and the National Parks Service.

These symbols have been selected for use with the sign system. Any additional symbols should be reviewed by the Task Force prior to use.

System Identities

The following logos are used to identify specific trails/trail management systems.

SECTION 1

Colors & Materials

These represent the Trail System's primary sign color and materials palette. The colors make up the bulk of the colors utilized in all sign applications and are created through subsurface digital graphics, vinyl or surface paint.

All materials specified as part of the Trail Sign Program were selected for their durability, quality, changeability and compliance.

The letter designations shown are used to indicate the color or finish of any component of a sign (see Section 3 Sign Drawings).

LRV Light Reflectance Value:
<https://thelandofcolor.com/lrv-light-reflectance-value-of-paint-colors/>

BASE COLOR PALETTE

The Trail System utilizes a simple base color palette to maintain consistency and complement most of the trail system identities.

A

DARK GRAY

B

BLACK

C

<i>3M Scotchlite Reflective Graphic Film</i>			680-10 White
PRIMARY USE	<i>Sign body background</i>	<i>Post</i>	<i>Messages</i>

GENERAL TRAIL IDENTITY COLOR GUIDELINES

The Trail System utilizes an upper header and lower header band that can present a unique color code for a trail. As a general guideline, each trail can select one color to represent the trail. The upper header will present as 100% opacity for the selected color, while the lower band will represent 70% screen of the selected color. All white text on colored background must have an LRV (light reflectance value) of at least 70% to ensure appropriate contrast.

SECTION 1

Identity Colors

The following colors are used to identify specific trails. They are to be used only in headers as shown in the sign drawings.

All materials specified as part of the Trail Sign Program were selected for their durability, quality, changeability and compliance.

Colors usage has been determined for maximum readability and contrast.

The letter designations shown are used to indicate the color or finish of any component of a sign (see Section 3 Sign Drawings).

PRIMARY USE	Primary header color	Secondary header color

SECTION 1

Color Use: On-Trail Signs

A specific system of color use has been established for the Trail System. It is important to follow these standards in order to maintain cohesiveness through out the entire program, while allowing for customization and distinction.

Base colors are to remain constant. Customization may occur within the header areas by utilizing specific trail identities and brand colors.

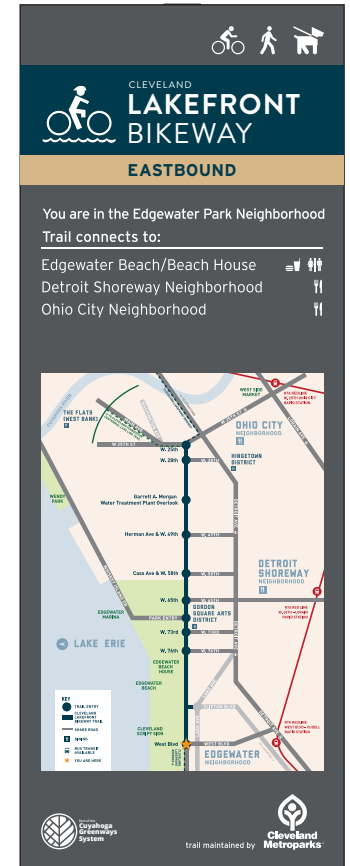

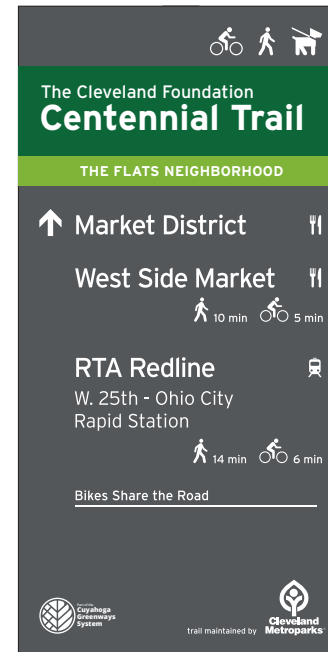

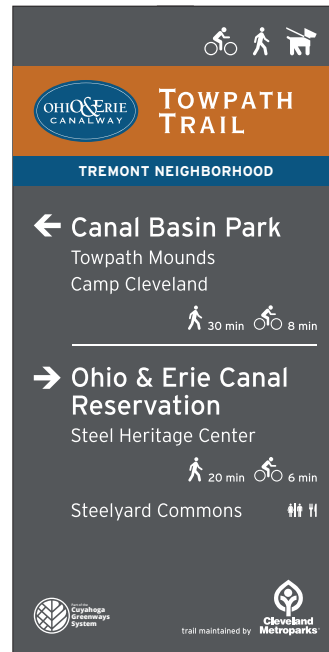

ELEVATION (ON-TRAIL DIRECTIONAL)
SCALE: 3/4"=1'

SECTION 1

Color Use: On-Trail Signs

The examples on this page, along with the previous page, show how maintaining these color standards allow for a cohesive, but customizable system.

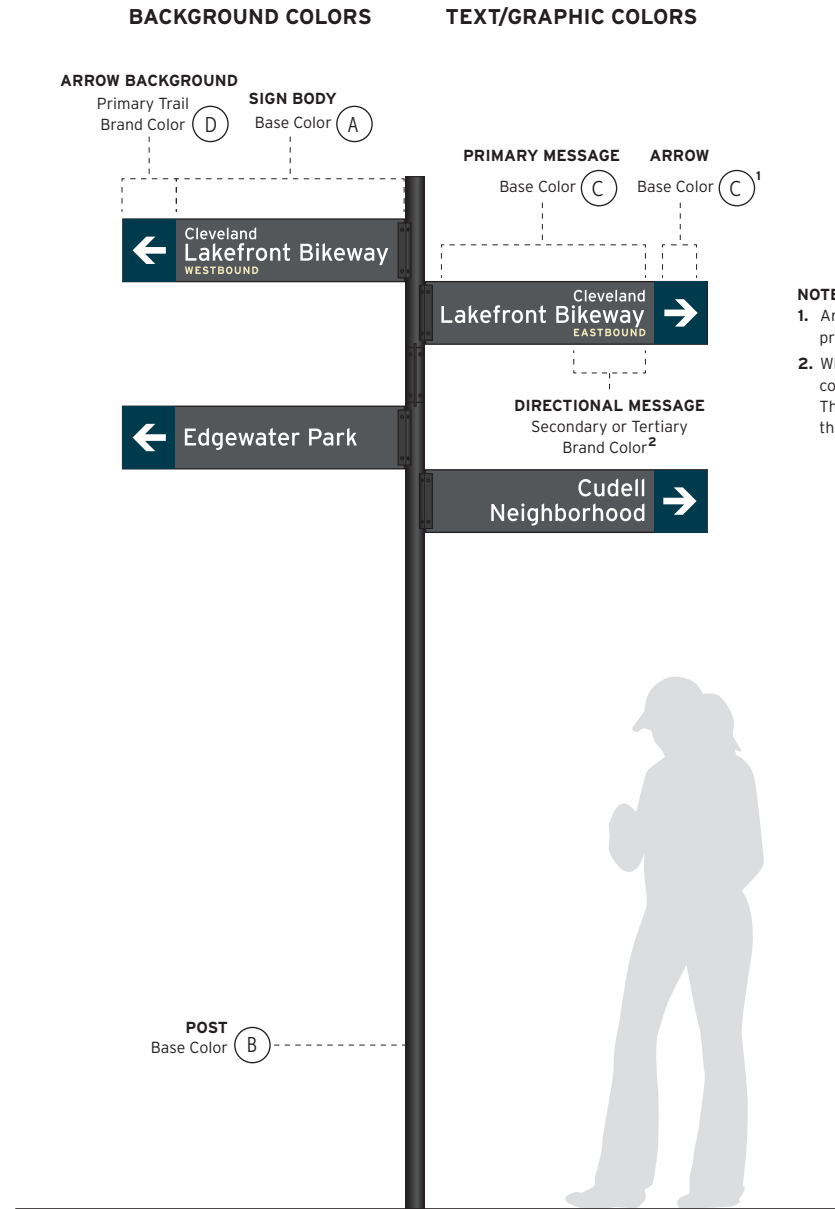

ADDITIONAL EXAMPLES (ON-TRAIL DIRECTIONAL & ORIENTATION KIOSK)
SCALE: 3/4"=1'

The Orientation Kiosk follows the same color guidelines as the Directional

SECTION 1

Color Use: On-Trail Signs

The examples on this page, along with the previous pages, show how maintaining these color standards allow for a cohesive, but customizable system.

NOTES:

1. Arrow should be in white unless background color does not provide adequate contrast (recommended 70% min.)
2. When directional subtext is included, it may be the secondary brand color or an additional color from the trail's brand color palette. The selected color must allow for adequate contrast between the background & text color (recommended 70% min.)

ELEVATION (ON-TRAIL FINGER POINTER DIRECTIONAL)
SCALE: 1/2"=1'

SECTION 1

Color Use

On-Road Signs

The On-Road Sign Family utilizes the Greenways Color Palette along with a standard base color. Customization is not allowed.

Refer to Pages 6 & 7.

ELEVATION (ON-ROAD SIGN FAMILY)

SCALE: 1/2"=1'

SECTION 1

Content Guidelines

Overview

TIME TO DESTINATION: USE OF MILES OR MINUTES

- » In dense urban areas, in close proximity to destinations, use minutes over miles.
- » Longer haul trails that take over 10 minutes to get to the next destination, use miles over minutes.
- » Follow Federal Transit Administration guidelines for determining minutes and miles:
 - » 15 minutes to walk 1/2 mile
 - » 12 mph to ride 1/2 mile

MAINTAINED BY

- » White logo only
- » Include contact information

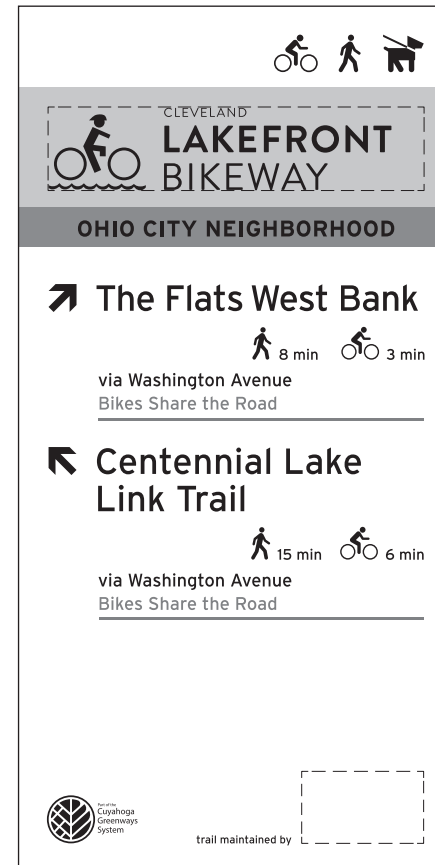

CUYAHOGA GREENWAYS

- » Where applicable, we have provided an logo to identify that a trail, bikeway or greenway is a part of the Cuyahoga Greenways System.
See Page 4 for approved logo.

NATIONAL/STATE BIKE ROUTES

- » Where applicable, a bike route medallion may be added to the bottom of the sign post of the Off Road Directional Signs.

ANATOMY OF A: ON TRAIL DIRECTIONAL

(Side upon entering a trail)

(Side upon exiting a trail)

Allowable use symbols
"What can I do?"

Trail Name (may or may not include a logo)
"Where am I?"

Neighborhood or Municipality
"Where am I?"

Wayfinding Guidance
"Where can I go?"
"How can I get there?"
"How long will it take me?"

Alert
"Will I have to go on road?"

Typical content:
Destinations and/or landmarks within a mile

Amenity symbols

Cuyahoga Greenways (left)

Trail Steward Organization
White Logo
QR Code to contact (optional)

Neighborhood or Municipality
"Where am I?"

Street
"Where am I?"

SECTION 1

Content Guidelines

Nomenclature: Trails & Destinations

Major Trails

Ohio & Erie Canalway Towpath Trail

Canal Basin Park Connector

Cleveland Lakefront Bikeway

Cleveland Lakefront Bikeway Connector

Cleveland Foundation Centennial Trail

Red Line Greenway

Harrison Dillard Bikeway

Morgana Run Trail

Whiskey Island Connector

Destinations

In general, only civic/public destinations should be listed on directional signs and maps. Private organizations and businesses change too frequently to ensure accuracy of information and ease of maintaining the system. Other considerations include:

- » Open to the public
- » Have significant visitor interest
- » Open year-round
- » Give the local area a distinctive identity
- » Reached by an easily identifiable and safe route

Destination types that are appropriate for inclusion as messages on signs include:

- » Neighborhood & Districts
- » Streets
- » Public Parks
- » Park Destinations (such as Beach, Beach House, Towpath Mounds, etc.)
- » Trails
- » Public Venues (such as West Side Market)
- » Public Transit Stations
- » Museums
- » Landmarks (such as Cleveland Script Sign, Free Stamp, etc.)

It is important to identify locations of comfort amenities such as places to eat, restrooms, stores, etc. However, since the majority of these type of amenities are privately owned, symbols for these types of amenities are to be associated with destinations listed.

Please see page 3 for approved symbols.

SECTION 1

Content Guidelines

Nomenclature: Neighborhoods & Districts (Seamless Cleveland)

This page presents the approved nomenclature used in the Seamless Cleveland Wayfinding Program. Where applicable, these Neighborhood and District names should be used in the Off road Trails & Bikeways Wayfinding Sign System.

Neighborhoods & Districts/Nodes are listed as agreed during March 2014, July 2014 and August 2014 workshops with Cleveland City Planning Commission, City of Cleveland Department of Community Development, Downtown Cleveland Alliance, Cleveland Neighborhood Progress, and two stakeholder naming workshops.

SECTION 1

Mapping

Graphic Standards

Part of Orientation Kiosk

Maps are an important component of the wayfinding program. They provide the user with the ability to orient themselves to the area and gain a greater perspective of how they can explore off trail on their journey.

Maps for this Wayfinding System are unique to each area and will need to be developed as the sign system is implemented.

Mapping Characteristics:

- » **Heads up Orientation:** maps for wayfinding which are rotated in the direction of travel.
- » **Subway Style Design:** schematic diagram style that simplifies the presentation of an area in favor of clear path of travel, connections and defined entry and exit points.

Mapping Content:

- » Trail path
- » Connecting streets/roads/trails
- » Neighborhoods & Districts (include symbols to indicate available amenities)
- » Transit stops
- » Major landmarks
- » Public destinations (content should align with what is presented on directional signs for the area)

Color

	
Text PMS 342 C	Text 85% tint

SECTION 2

Sign Standards

● On-Trail Sign Family Overview

● On-Road Sign Family Overview

Typical Installation & Mounting

SECTION 2

On-Trail Sign Family

The On-Trail Sign Family utilizes a standard base color and customizable identity/brand colors (shown in grayscale).

A1

Orientation Kiosk

2'-3" w x 6'-0" h panel

Freestanding single- or double-sided post and panel sign

Provides orientation to the surrounding area and trail access information

Used at trailheads

A2

Directional

2'-3" w x 4'-6" h panel

Freestanding single- or double-sided post and panel sign

Provides directional information to places, connections, amenities off the trail

Used on trail at entry/exit points

A2.1

Orientation Kiosk/Directional

2'-3" w x 6'-0" h panel

Freestanding double-sided post and panel sign

Provides orientation to the surrounding area and trail access information on one side & directional information to places, connections, amenities off the trail on the other

Used at trailheads that are met by on-road facilities or Neighborhood Connectors

A3

Directional

3'-0" w x 8" h panel

Freestanding multi-panel flag-mounted sign (finger pointer)

Provides quick read directions to surrounding destinations, trail direction

At trail junction points

SECTION 2

On Road Sign Family

Trailblazer/Directional
Post-Mounted
3'-0" w x 2'-6" h

Single message directional (to specific trails or greenways)

Can be mounted on existing posts/poles or with a new post

Directional
Post-Mounted
3'-8" w x 3'-0" h

Multi-message directional

Can be mounted on existing posts/poles or with new posts

Confidence Marker/Directional
Flag-Mounted
1'-6" w x 1'-6" h wedge

Used on longer road spans to provide reinforcement of route and directions for on road connections

Mounted on existing posts/poles

Confidence Marker/Directional
Post-Mounted
2'-6" circle

Used on longer road spans to provide reinforcement of route and directions for on road connections

Can be mounted on existing posts/poles or with a new post

SECTION 2

NEIGHBORHOOD TEXT DETAIL

SCALE: 1"=1'

1. Text should never extend past established margins
2. Reduce tracking as necessary (**min. -40%**)
3. If -40% is not enough, text should extend to 2 lines with line spacing = 1/2 cap ht.

ADDITIONAL SIGN FACE LAYOUT EXAMPLES

SCALE: 1/2"=1'

SIGN FACE LAYOUT

SCALE: 1"=1'

A1 Trail Orientation Kiosk
Post-Mounted

This map illustrates the Lake Erie Waterfront Trail route, starting at the West Side Market and ending at West Blvd. The trail is shown as a dark blue line with circular markers at each stop. Key locations and streets include:

- West Side Market** (starting point)
- Garrett A. Morgan Water Treatment Plant Overlook**
- Herman Ave & W. 49th** (marked with an orange star, indicating the current location)
- Cass Ave & W. 58th**
- Gordon Square Arts District**
- W. 73rd**
- W. 76th**
- Edgewater Beach House**
- Edgewater Beach**
- Cleveland Scrip Sign**
- West Blvd** (ending point)

The map also shows surrounding areas like **OHIO CITY NEIGHBORHOOD**, **HINGETOWN DISTRICT**, and **DETROIT SHOREWAY NEIGHBORHOOD**. This map illustrates the Cleveland Lakefront Trail route, which runs along the western shore of Lake Erie. The trail is shown as a dark blue line with various landmarks and transportation options marked along its path.

Key:

- Trail Entry
- Cleveland Lakefront Bikeway Trail
- Share Road
- Dining
- Bus Transit Available
- You Are Here

Neighborhoods and Landmarks:

- EDgewater NEIGHBORHOOD:** Includes West Blvd, Cleveland Script Sign, Edgewater Beach, Edgewater Beach House, and Park Entry.
- DETROIT SHOREWAY NEIGHBORHOOD:** Includes W. 76th, W. 73rd, W. 65th, Cass Ave & W. 58th, Herman Ave & W. 49th, and W. 28th.
- OHIO CITY NEIGHBORHOOD:** Includes W. 25th, W. 21st, and W. 19th.
- DETROIT RED LINE:** Includes RTA Red Line West Blvd - Cudell Rapid Station and RTA Red Line W. 65th - Lorain Rapid Station.
- DETROIT SHOREWAY NEIGHBORHOOD:** Includes RTA Red Line W. 65th - Lorain Rapid Station.
- OHIO CITY NEIGHBORHOOD:** Includes RTA Redline W. 25th Ohio City Rapid Station.
- WEST SIDE MARKET:** Located near the Ohio City neighborhood.
- THE FLATS (WEST BANK):** Located near the Ohio City neighborhood.
- LAKE ERIE:** The large body of water to the east of the trail.
- WINDY LAKE AND PARK:** Located to the east of the trail.
- WENDY PARK:** Located to the east of the trail.
- COVINGTON RIVER:** Located to the east of the trail.

SECTION 3

A2 On-Trail Directional Post-Mounted

NOTE: The sign faces below & on the previous page represent a variety of layout possibilities based on messaging scenarios. The dimensions & specifications provide standards for message hierarchy & layout. Additional layout combinations and variations may be needed, therefore, all sign faces must be reviewed & approved prior to fabrication.

Aside from under "Bikes Share the Road", the rule line should be used to separate different directions

ADDITIONAL SIGN FACE LAYOUT EXAMPLES
SCALE: 1/2"=1'

SECTION 3

A2.1 On-Trail Orientation/Directional Post-Mounted

At the start of new Trailheads that are met by on-road facilities or Neighborhood Connectors, it may be appropriate to have a Trail Orientation map on one side and a Directional on the other.

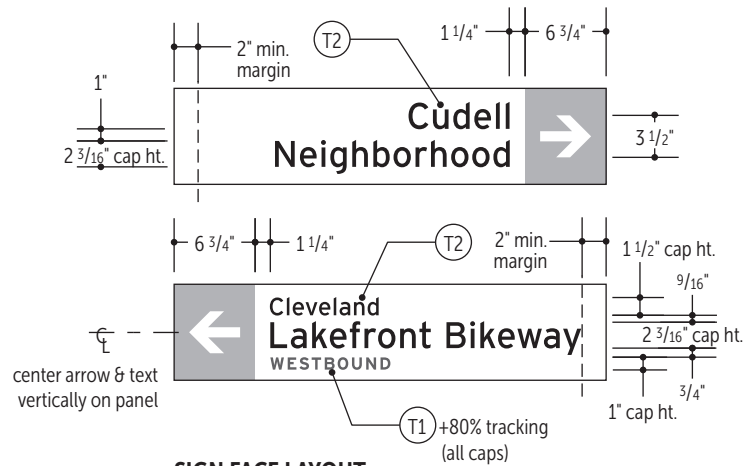

The longer Orientation Kiosk panel size should be used for both sides.

This will provide additional room for messages or should be simply left blank. Message layout should not change.
